General NFT FAQs

● What is an NFT ?

An NFT or Non-Fungible Token is a digital token on blockchain network. This token can be anything, ranging from a simple picture to music to certain online course. It is any digital collectible that can be conceived to hold value. The name 'non-fungible' comes from the fact that each token is unique and cannot be exchanged for something

● How to invest in NFTs?

As a buyer of NFT, one would require three things essentially:

1. Cryptocurrency: Ethereum (ETH) is the most accepted crypto by NFT providers – which essentially helps you to buy the NFT of your choice.
2. A digital wallet to store it in: Metamask (<https://metamask.io/>) being one of the most popular one- which helps you to store your crypto and facilitate the transactions while your purchase or sell an NFT.
3. Use sites like WazirX (<https://nft.wazirx.org/>) to buy or sell an NFTs. You will also find all the relevant details related to each and every NFT on this portal.

Now that you know these, the steps to be followed are:

Step 1: Create a wallet in Metamask.

Step 2: Add Ethereum in your Metamask Wallet

Step 3: Sign up in WazirX and sync it with your wallet account and start investing in NFTs.

● Is it a safe proposition to buy an NFT?

It is important to understand that the value of NFT will be based on what someone is offering to pay for it. Demand will drive prices. All that being clear, one should consider buying an NFT after proper research as it is with any other form of investment.
